WELCOME TO

DRI-DUCK

We produce gear that is *durable, comfortable* and *built* to serve you well.

At every farm, construction site and tough job throughout our hometown of Kansas City, hardworking people had been led to believe that rigid, uncomfortable gear was their only option in workwear.

We knew better.

So, we focused on the details and solved the age-old issues the other guys overlooked. We created Boulder Cloth™ canvas that is tough yet comfortable, chose zippers and drawstrings that are durable, and reinforced high-stress seams - all in the name of exceptional quality. That's how we built our first jacket, and that's how we built DRI DUCK. We set our own standard for better workwear and never looked back. Join us in our commitment to quality and comfort.

• REAL WORK. MADE BETTER. •

• BUILT FOR HARD WORK •

TM

Experience Power Move™, a collection of movement features built for those who lift, reach and swing on the job. We're making big moves. For the guys that deserve more from their workwear, we created Power Move™.

WORKWEAR REBORN

• YUKON FLEX •

When you're in the thick of it, your workwear can't fall short. We utilized every function in our arsenal to remaster the Yukon with newly designed movement performance features that enhance the way you move on the job. Find a greater range of motion in 4-way stretch canvas combined with weather resistance that keeps you dry – all in the name of comfort. The Yukon Flex works as hard as you do and was built to withstand it all.

A POEM
by Eric Borden

You say "the world needs ditch diggers", that statement is true enough.
If you say it because you think you are better than us, then with you I have a grudge.
See, we are every creed and color. We are woman and we are man.
We fall into what society labels blue collar, and we are proud to wear that brand.

Get inspired by the full version of this powerful poem, Ditch Diggers –

We're shining a light on the blue-collar workforce,
and we want you to be a part of spreading the work.
